Luer Lock
CANNULA NEEDLES

Catalog 2022 - 2023

STERILE /NON-STERILE

as per your needs

**SURGICAL INSTRUMENTS
MANUFACTURING COMPANY**

The SUCTION TUBES / CANNULAS / NEEDLES are intended for used for delivery of liquids or aspiration of fluids and the removal of soft tissue debris from the body during general surgical and plastic surgery procedures.

Our Cannula Needles are also designed to meet the needs of pharmacologists, toxicologists, pathologists and other biomedical researchers.

Article No. 30-01275-3B

Cannula needle laser soldering 35mm 21G, metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

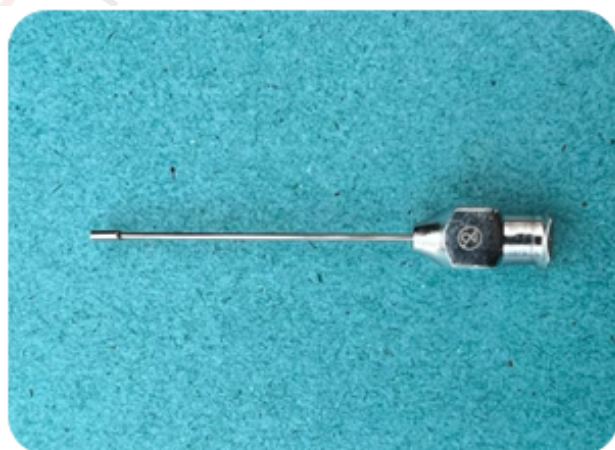

Available: Sterile / Non-Sterile

Article No. 30-01280-3AL

Cannula needle laser soldering 35mm 21G, metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

Article No. 30-01285-4AL

Cannula needle 40mm, 17G
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

Article No. 30-01300-6AL

Cannula needle laser soldering 60mm 19G, metal.
 For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

Article No. 30-01304-8AL

Cannula needle laser soldering 80mm 17G, metal.
 For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

Article No. 30-01305-8AL

Cannula needle laser soldering 80mm 18G, metal.
 For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

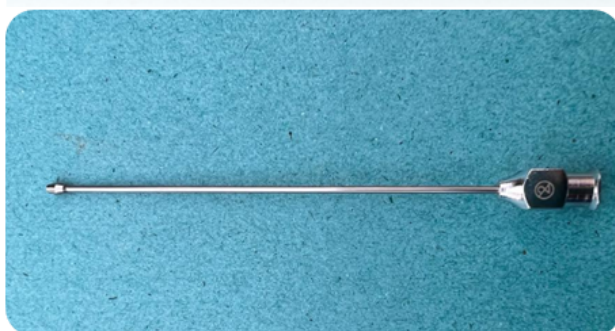

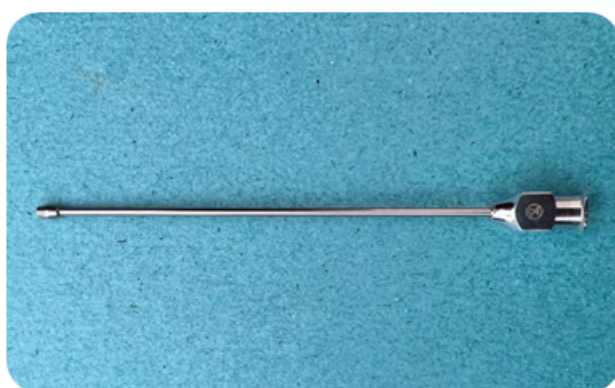

Available: Sterile / Non-Sterile

Article No. 30-01310-10AL

Cannula needle laser soldering 100mm 18 G, metal.
 For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

Article No. 30-01741-10B

Cannula needle straight blunt 1.6x80mm, 16G metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

**Article No. 30-01770-8B**

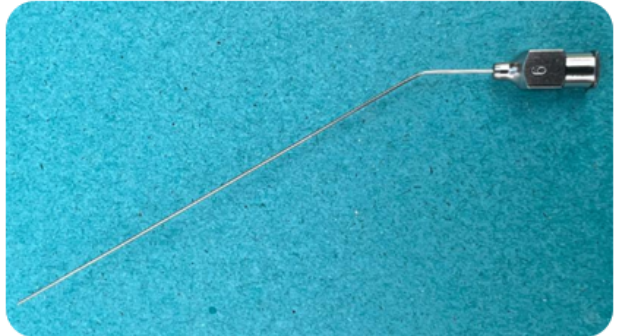

Cannula needle blunt curved 1.0x80mm, 19G metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

**Article No. 30-01771-10B**

Cannula needle blunt curved 0.6x100mm, 23G metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

**Article No. 30-01772-9B**

Cannula needle blunt curved 1.5x90mm, 17G metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

Article No. 30-01773-9B

Cannula needle blunt curved 1.0x90mm, 19G metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01774-9B

Cannula needle blunt LL curved 0.8x100mm, 21G metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01780-8B

Cannula needle blunt curved 45 degree 1.2x80mm, 18G
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

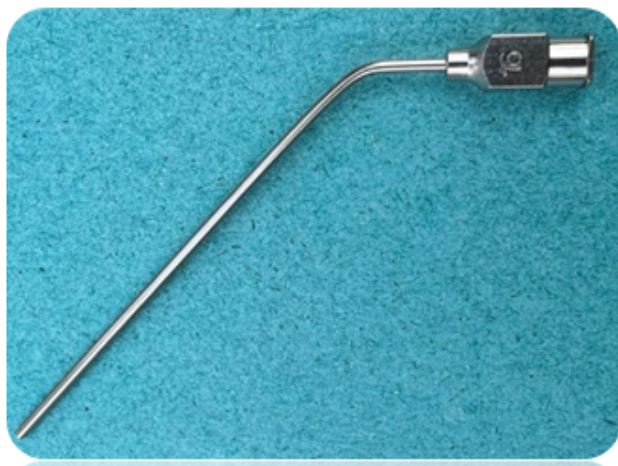

Available: Sterile / Non-Sterile

Article No. 30-01781-8B

Cannula needle blunt curved 45 degree 1.6x80mm, 16G metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

Article No. 30-01782-8B

Cannula needle blunt LL 45 degree curved 0.8x80mm, 15G metal

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01783-8B

Cannula needle blunt curved 45 degree 2.0x80mm, 14G metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

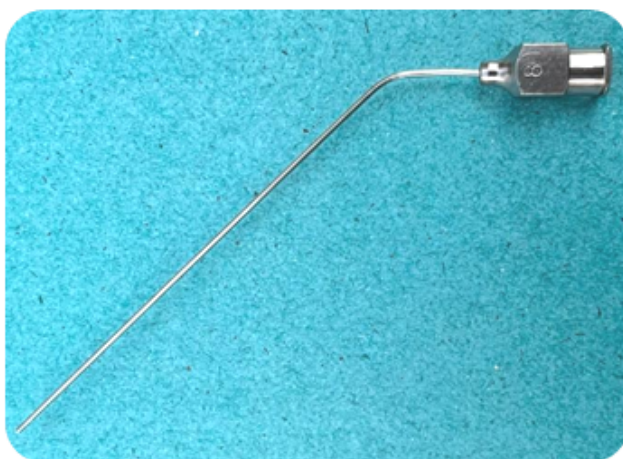

Article No. 30-01784-8B

Cannula needle blunt LL 45 degree curved 0.8x80mm, 21G metal

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

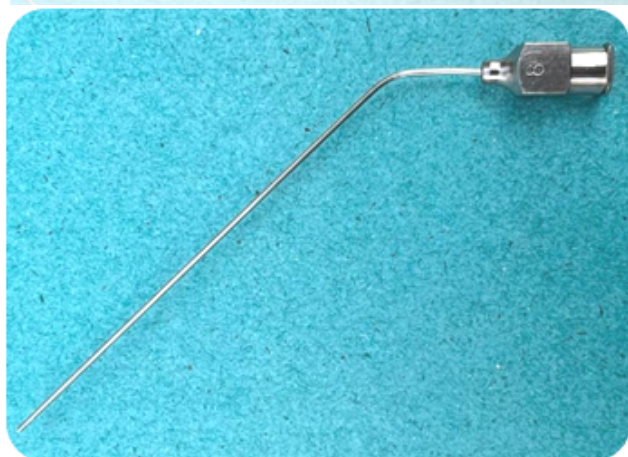

Article No. 30-01785-8B

Cannula needle blunt LL 45 degree curved 2.4x80mm, 13G metal

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01786-8B

Cannula needle blunt straight 2.5x2.0x80mm, 13G metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

**Article No. 30-01787-8B**

Cannula needle blunt straight 3.0x100mm, 11G metal.
For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

**Article No. 30-01788-8AL**

Cannula needle straight laser soldering 0.8x80mm, 21G metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

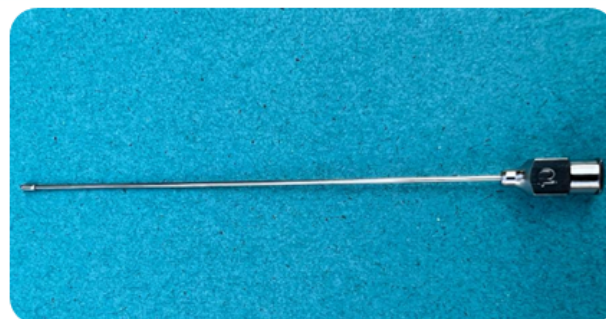

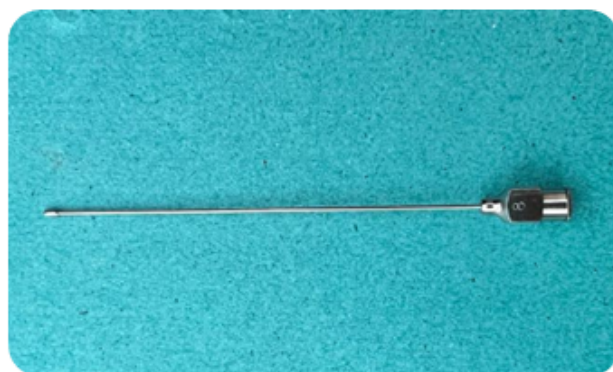

Available: Sterile / Non-Sterile

**Article No. 30-01789-10AL**

Cannula needle straight laser soldering 1.0x100mm, 19G metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile

Article No. 30-01798-10AL

Cannula needle curved laser soldering 2.4x100mm, 13G metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01841-12AL

Cannula needle straight laser soldering 120mm 13G, metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01842-12AL

Cannula needle straight laser soldering 120mm 14G, metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01843-12AL

Cannula needle straight laser soldering 120mm 15G, metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01844-12AL

Cannula needle straight laser soldering 120mm 17G, metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01845-5AL

Cannula needle blunt LL, 6x6 curved 1.5x55mm 17G, metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01890-8AL

Cannula needle blunt LL, 6x6 curved 1.8x80mm 18G, metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile 

Article No. 30-01988-15AL

Cannula needle straight laser soldering 1.2x150mm, 18G metal.

For Luer and with Luer Lok system, without residues of calamine, grease, polishing agent, Free of pores, fissures, scratches. The olive must stay in place and be well fixed, Rinsing test (injection of 10ml water) to check ejection of residues on paper.

Available: Sterile / Non-Sterile
